

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission

Columbia Gas Transmission, LLC

Docket No. CP13-8-000

Notice of Availability of the
Environmental Assessment for the Proposed
Line MB Extension Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Line MB Extension Project, proposed by Columbia Gas Transmission, LLC (Columbia) in the above-referenced docket. Columbia requests authorization to construct and operate about 21.1 miles of 26-inch-diameter pipeline and appurtenant facilities in Baltimore and Harford Counties, Maryland.

The EA assesses the potential environmental effects of the construction and operation of the Line MB Extension Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Army Corps of Engineers (USACE) participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with

respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The USACE will adopt relevant sections of the EA, as appropriate, in its decision document.

The proposed Line MB Extension Project includes the following facilities:

- 21.1 miles of 26-inch-diameter pipeline;
- bi-directional pig launcher/receiver at the Owings Mills Metering and Regulation Station at milepost (MP) 0.0;
- 26-inch mainline valve at MP 7.9;
- 26-inch mainline valve at MP 16.1; and
- bi-directional pig launcher/receiver at the Rutledge Compressor Station at MP 21.1.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding.

In addition, the EA is available for public viewing on the FERC's website (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at:

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC **on or before May 24, 2013.**

For your convenience, there are three methods you can use to file your comments to the Commission. In all instances, please reference the project docket number (CP13-8-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

- (1) You can file your comments electronically using the [eComment](#) feature on the Commission's website (www.ferc.gov) under the link to [Documents and Filings](#). This is an easy method for submitting brief, text-only comments on a project;

- (2) You can also file your comments electronically using the [eFiling](#) feature on the Commission's website (www.ferc.gov) under the link to [Documents and Filings](#). With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "[eRegister](#)." You must select the type of filing you are making. If you are filing a comment on a particular project, please select "Comment on a Filing"; or
- (3) You can file a paper copy of your comments by mailing them to the following address:
